BOUNTIFUL CITY MAIN STREET

Bountiful, Utah
Client. Bountiful City
Scope. Streetscape

Bountiful City's historic downtown needed improvement and upgrades to better unify the area and make it more attractive for retail businesses to locate. MGB+A worked with Bountiful City and a local architect to beautify Main Street with a pleasant streetscape design. The flowers, trees and ornamental grasses chosen keep maintenance costs low while transforming empty spaces into comfortable and calming surroundings for pedestrians. MGB+A carried a brick pattern along the pedestrian walkway to highlight crosswalks and add character to a stale streetscape.
